SUMMARY

Computer Science undergraduate (expected 2026) skilled in Python, C/C++, R, SQL, PostgreSQL, Django, and full-stack development. Internship at Cypwng on LendFundz fintech project implementing authentication and loan management. Developed projects in blockchain (EduChain), AI/ML (Mental Health Detector), and IoT (ParkEase).

EXPERIENCE

- **Software Developer Intern** Jan 2025 – June 2025
Cypwng *Hyderabad, India*
- Contributed to LendFundz fintech project by developing authentication, loan management, EMI calculators, and credit score features using Django, PostgreSQL, HTML, and CSS. Collaborated on full-stack integration and improved overall user experience.

EDUCATION

- **Chhattisgarh Swami Vivekanand Technical University** 2022 – 2026
B.Tech (Honours) in Computer Science Engineering (Data Science)

PROJECTS

- **EduChain – Blockchain and NLP**
Developed a blockchain platform for academic credential verification using Ethereum smart contracts, IPFS, and NLP models (SpaCy, HuggingFace). Frontend in ReactJS, backend APIs in Node.js/FastAPI.
- **LendFundz – Fintech Web App**
Implemented authentication, loan applications, EMI calculators, and credit score tracking using Django, PostgreSQL, HTML, and CSS.
- **ParkEase – Smart Parking System**
Designed real-time parking slot detection and reservation features using Python and web technologies, integrating IoT concepts for efficiency.
- **Mental Health Detector**
Built a web app for sentiment analysis, mood tracking, and resource suggestions. Implemented NLP pipelines and interactive dashboards with Chart.js.
